Welcome to the world of machine-made carpets!

The 700-reed BCF heat-set carpet is one of the most popular and high-quality types of machine-made carpets, recognized for its distinctive features in both the Iranian and global carpet markets. These 700-reed carpets have a relatively dense texture, which gives them strength and beauty. As a result, 700-reed BCF heat-set carpets, due to their high-quality fibers and the heat-setting process, have a long lifespan and high resistance to wear and pressure.

The Jasper brand is one of the well-known names in the carpet industry, renowned for its unique designs and high-quality products. This brand primarily focuses on the production of machine-made carpets and strives to blend traditional art with modern technologies in its offerings. The quality of Jasper's products is a key strength of the brand, and the use of high-quality raw materials and precision in the manufacturing process ensures that Jasper carpets are durable and long-lasting. Jasper's designs are typically inspired by various cultures and nature, and the company endeavors to meet the diverse needs of its customers by providing a wide variety of patterns. The reputable Jasper collection places great emphasis on after-sales services and customer satisfaction, with its support team always ready to respond to inquiries and offer advice to valued customers.

JASPER CARPET

- **Diverse Designs:** Jasper offers a variety of designs and patterns, including traditional, modern, and minimalist styles. This diversity allows customers to choose carpets that match their interior decor.

- **Stain and Water Resistance:** Jasper carpets are stain-resistant and easy to clean, making them suitable for use in various environments.

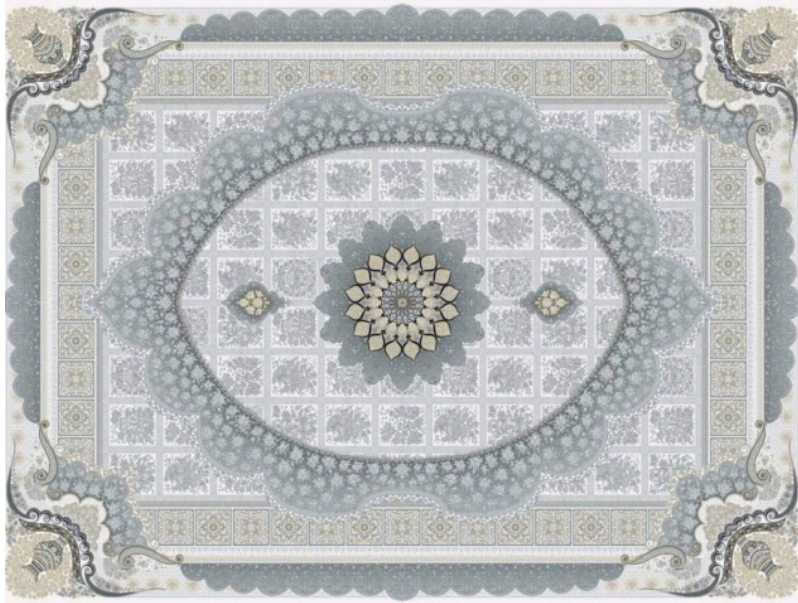

The 700-reed BCF heat-set carpet by Jasper is a blend of art and technology that brings beauty and comfort to every corner of your home. Jasper specializes in the production of this type of carpet, with the following outstanding features:

- **High Quality:** Jasper's 700-reed carpets are made using high-quality BCF fibers, contributing to their durability and longevity.
- **Softness and Delicacy:** The heat-set process in the production of these carpets enhances their softness and delicacy, providing a comfortable and pleasant experience for users.

Jasper, using advanced machinery and the latest global technologies, is capable of producing carpets with high precision and quality. These include modern weaving machines and precise quality control systems that monitor each stage of production. Considering market needs and customer preferences, the company has expanded its production line and has become one of the reputable names in the carpet industry.

If you are looking for a high-quality, beautiful, and sturdy carpet, Jasper brand carpets are a suitable option for you. These carpets, with their flexibility and ability to adapt to various environments, make an excellent choice for apartments, villas, offices, and commercial spaces.

Designs and Patterns

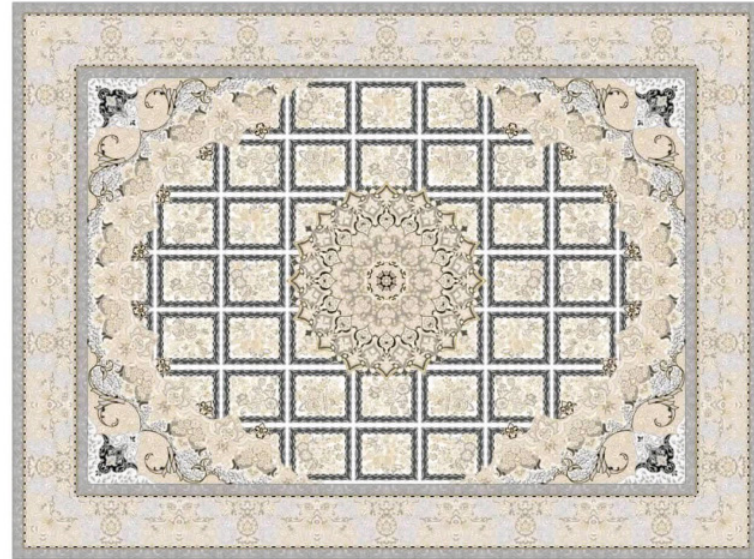

The 700-reed BCF heat-set carpets are produced in a variety of designs and patterns, including:

- Classic Designs: Inspired by traditional Iranian arts.
- Modern Designs: Featuring geometric and minimalist patterns.
- Nature-Inspired Designs: Including flowers, trees, and natural landscapes.
